Education

Pharos University in Alexandria

Sep. 2021 – June 2025

Bachelor of Science in Computer Science - GPA: 3.8

Alexandria, Egypt

Experience

Aurora Tech

September 2024 – Present

Full Stack Developer

New Cairo, Egypt

Projects

Telegram Clone | *NextJs, TypeScript, Apollo GraphQL, TailwindCSS, ExpressJs, MongoDB, Prisma*

[Project Link](#)

- * Developed **Teragram**, a feature-rich messaging app inspired by Telegram, leveraging GraphQL for efficient data querying and management. It supports real-time chat, multimedia sharing, and secure JWT authentication.
- * The app allows users to connect with registered contacts, create channels for communication, and update their profile information. Its intuitive UI enhances user experience, making interactions seamless and engaging.

Tweeter Social Media App | *NextJs, TypeScript, MongoDB, Prisma, Shadcn-ui*

[Project Link](#)

- * Developed **Tweeter**, a Twitter clone that allows users to post, like, retweet, and follow others. The app features a responsive design, user authentication, and a seamless experience across devices.
- * Tweeter offers real-time updates on tweets and interactions, providing a smooth and engaging user experience with an intuitive interface and optimized performance.

Social Posting App | *NextJS, TypeScript, TailwindCSS, Socket.IO, ExpressJs, MongoDB*

[Project Link](#)

- * Developed **MembersOnly**, a web application, with session-based authentication leveraging Passport.js, which utilizes cookies to manage user sessions. It enables users to create new posts, fostering community interaction and content generation within the platform.
- * Utilized WebSocket technology to enable real-time updates, ensuring that new posts created by one user instantly appear for others, enhancing user engagement and interactivity.

Certifications

AWS Certified Cloud Practitioner

Issued on 10 November 2024

[Badge Link](#)

Technical Skills

Languages: HTML/CSS, JavaScript, Typescript, PHP

Technologies/Frameworks: Linux, Git, TailwindCSS, ReactJS, NextJS, NodeJS, ExpressJS, Apollo GraphQL, MongoDB, Prisma, Vite, WebPack, Vercel, EJS, Flutter, FireBase, Vercel, Railway, Socket.IO, PassportJS, AWS

Extracurricular

Introductory Session on Git and GitHub - Spring 2023

[Session Poster](#)

- Conducted an introductory session on Git and GitHub at my college as an extracurricular activity, collaborating with a colleague to deliver comprehensive insights into version control and collaborative coding practices.
- Covered fundamental concepts such as repository management, branching, merging, and pull requests, empowering fellow students with essential skills for effective code collaboration and project management.

The 2023 ICPC ECPC Qualifications Collegiate Programming - August 2023

[Certificate](#)

- Participated in the ECPC contest qualifications, securing the 14th place with my team and earning the distinction of being the top-performing team from our campus, demonstrating our prowess in competitive programming.
